If not, what do you feel is stopping you from riding your bike? And if you have biked in Cochrane, what would help you consider biking for transportation in the Town of Cochrane more frequently?

Traffic, not enough designated pathways from Sunset

Safer bikes options to cross highways and options from Fireside get to downtown without having to cross highway 22 and go the long way around through riversong or share the road with fast cars on more direct routes.
5/29/2023 11:57 AM [View respondent's answers](#) [Add tags](#)

It would be helpful to have more bike lanes downtown and along the 1A/22 highways

If the highway 22 bridge had a safer pedestrian/biking sidewalk. It's too narrow right now, and too close to the road
5/29/2023 09:07 AM [View respondent's answers](#) [Add tags](#)

I live in Cochrane but do not work here.
5/29/2023 09:06 AM [View respondent's answers](#) [Add tags](#)

Bike lanes in downtown Cochrane. It is hard for safety purposes with children. The other major major huge issue is the hwy 22 bridge over the river, with young kids who sometimes lose control if they were to lose control on that bridge they would very likely end up on the hwy and.... The pedestrian lane on the bridge needs to be wider. But at the very least the barrier between cars and pedestrians needs to be filled in so that small children can't just fall through.

Safer areas for kids to ride to and from businesses and safer highway crossing.

- All through downtown

- I know it's not really "Cochrane" but road riding on Horse Creek Road is always tough. Even when you follow the rules and ride single file, motorists still have a hate on and want us to be "on the pathways".

We live in fireside and my kids want to ride to school. With the current state of traffic out front of the school it's just not safe for kids to be out there in their bikes. Bike Cochrane should petition the removal of parking on both sides of the street in school areas during school times. There is no visibility due to the parking, plus the traffic at drop off and pick up times only allows for single car driving. It's crazy dangerous and it's only a matter of time before someone gets hurt. Despite multiple emails from myself, the mla's have decided to wait until someone gets hurt before taking action. Please use Bike Cochrane sway to make things safer around schools for the kiddos

- Getting to the library or into the core is dangerous, even though there is a bike lane traffic is busy and not suitable for children. Also a more direct route to Spray Lakes along Griffin Road would be appreciated. I also thing that Heritage Hills and Heartland need a quick way to access downtown without having to go through West Terrace and ride along the river which adds a lot of time...

- a bit of crowding between all path users
- I don't ride my bike on busy streets or highway out of respect of those driving. The paths in parks connect every area in Cochrane, so there's no need to use street ans highways.

Ummm..... Is there actually a safe way to get kids around by bike in town? If there is, it might be some sort of Jetson's era device to allow kids to float above traffic because there certainly isn't infrastructure in place for them to commute to school safely now.

Interesting story from the other day: I was biking and stopped at the 3-way stop by the library. A car had arrived at the intersection before me. I was stopped waiting for him to go and when he finally went he unrolled his window and screamed, "I was expecting you to blow the stop sign since you're on a bike!!". Made me think that cyclists are conducting themselves in different ways and drivers don't know what to expect, or perhaps expect the worst. Thanks Bike Cochrane for all that you're doing!
